[Teaching for Learning Series](#)

[Transparency in Teaching and Learning \(TILT\) Workshop](#)

[Mindfulness Series](#)

[Book Club: Bandwidth Recovery](#)

Register for all workshops through the [Marian Events Page](#) or by clicking the title above.

Tools for Teaching – Take Out

This year our Tools for Teaching conference will be a bit different. We want to welcome back our faculty to campus and celebrate the hard work you have been doing at home in your dining rooms, living rooms, and home offices. We also want to share information on the many tools and resources available to you and your students.

So, we are hosting "**Tools for Teaching - Take Out**" on **Thursday, August 13 in Alumni Hall** where you can drop in during a designated time-slot, check out some teaching resources, and take

some lunch to-go. Plus, there will be lots of good surprises.

This will be a ticketed event and you will need to come at the time you select in order to provide a safe environment for everyone to enjoy the event. While, it isn't our typical format, you will not be disappointed.

[Register here for the event.](#)

Meet CTL's New Instructional Technologist, Blake Ide

We are excited to announce that the search for a new Instructional Technologist within the Center for Teaching and Learning has ended. Blake Ide has accepted the position and is being oriented to Marian University. After getting a Bachelor of Arts in Communication, Blake has worked in education for 10 years and decided shortly into his first year that his career path in education would move forward with a focus in instructional technology. He found a calling in not only helping students take a more academic view of technology but also helping teachers and faculty use technology to connect and engage with students who are living and growing in an increasingly technological world. In pursuit of his goal of working with

educational technology, he attained a Masters of Education: Curriculum and Instruction: Educational Technology Leadership degree from Concordia University. He has worked with many different types of instructional technology but one of his specialties is Canvas. When on campus, Blake will be located in the CTL space on the first floor of the Library, room 102. You may also email Blake at jjde@marian.edu or call him at (317) 955-6758.

Instructional Technology Workshops

The CTL is holding several instructional technology workshops over the next few weeks in an effort to support you as you start using these tools in your classrooms. We will have 1-hour long sessions being held mostly via WebEx covering Screencast-O-Matic, WebEx, Panopto, and Engaging Remote Learners. We request that you please register if you plan on attending so we know how many to expect at the session and so we can communicate with you prior to the session. [Learn more and register here.](#)

Invitation to Openly Share Your Classroom with New Faculty

Are you willing to support new faculty by opening up your classroom space, whether physical or remote? Each new faculty are encouraged to visit one or two classrooms this fall semester so they can see what existing Marian faculty are doing with their students. We really appreciate the collaboration and support! Whether you are teaching in-person, hybrid, or completely online, please email Trisha Staab if you are willing to allow new faculty to observe; tstaab@marian.edu

New Canvas Feature Available: Direct Share

You can now share pages, assignments, and quizzes with any other instructor without giving access to your course. You can also easily copy a single page, assignment, or quiz from one of your courses directly to one of your other courses. Simply go to the assignment or page and click the three dots. There you will find the option "Send To..." or "Copy To..." Use this to send the item to any instructor in the system or to copy the item to any course in which you are enrolled into as a teacher. Any shared content to an instructor can be found [under your account icon](#). Use the following guides for more information:

- [How do I use Direct Share to copy an assignment to another course?](#)
- [How do I use Direct Share to send an assignment to another instructor?](#)

CTL Fall Event Schedule

CTL events are starting to be scheduled for the fall. All events are being held synchronously via WebEx or online in Canvas. Check out the CTL calendar of events to see what's being offered and to register for any sessions that are of interest. It's encouraged you bookmark this link and revisit, as we are always adding new events/workshops: [CTL Calendar of Events](#)

Community Group for Online Testing

Do you use Canvas assessments through Respondus Lockdown Browser and Monitor? Are you curious what others are doing in this area? If you'd like to join a community of faculty and staff who can collaborate on best practices and resolve issues together related to Canvas Assessments through Respondus Lockdown Browser and Monitor, please contact Wendy Labuzan: wsenour@marian.edu

Track Student Progress on Institutional Learning Outcomes in Canvas

Canvas allows instructors to track student progress and mastery of [institutional learning outcomes and criteria](#). A video tutorial and step-by-step guide are available on the assessment resources libguides page [HERE](#). If you have any questions or need any assistance setting up outcomes and rubrics in Canvas for your Fall courses, please contact [Tony Ribera](#).

We are Moving to EvaluationKit

Beginning summer 2020, Student Responses to Instruction (SRIs) will be collected in EvaluationKit. Historical data from fall 2017 to the present will be uploaded to EvaluationKit and those reports will be available to faculty. However, SRI reports from before fall 2017 will not be available in the new system. Faculty should download any and all SRI reports from before fall 2017 by August 2020. After August 2020, Marian will no longer have access to Blue. If you have questions about this, please contact [Michael Lockett](#) or [Tony Ribera](#).

Accessing the Teaching Professor

Marian University has membership with *The Teaching Professor* and access to it has recently changed. As a member of our campus community this online content from Magna Publications is available at no cost to you. Since 1972 Magna has been a leading provider of higher education professional development resources and *The Teaching Professor* is a forum for discussion of the best strategies supported by the latest research for effective teaching in the college classroom. Sign up today and help energize your higher education career.

To register and log in to access the group subscription:

1. Go to <https://www.magnapubs.com/register/>. Enter information in the required fields > Submit.
NOTE: if you get an error that your password does not match, skip down to the **EXISTING USERS** Section below
2. Once successfully registered, you will see a screen "Thank you for completing your registration"
3. Go to <https://www.magnapubs.com/profile/join-sitelicense/1c3decef860acd22f5b848b309a116bc>
4. On the right side of the page, in the "Username or email address" box, enter the email address that you submitted in Step 1.
5. Enter your password > Login
6. On the My Account page > Join Team
7. On the My Online Access page click the appropriate orange "Go to..." box for access

For Teaching Professor subscribers: When taken to the Teaching Professor web site, in the upper right corner, select Sign In. Re-enter your email address and Magna password. Click Sign In. You will now have full access to the articles and content on the site.

EXISTING USERS

If you get an error when using Create Account:

1. Go to <https://www.magnapubs.com/profile/lost-password/>
2. Enter your email address > Reset Password
3. Once the password has been reset, go to the URL in Step 3 above to complete the registration process and log in

If you have any questions or need further assistance with your account, please contact the Magna Customer Service staff at support@magnapubs.com.

Experiencing COVID-Style Classroom Teaching by Christine McClure

"I'm not going to lie: COVID-19 scares me. But I'm a teacher. It's not just what I do -- it's who I am. Plus, I have four kids to support, so I feel lucky to have a job, and I thoroughly enjoy it.

I love my university and my students, but it's hard to balance that with my concern for my own children and my fears. I'm sure you are experiencing a myriad of emotions as well. I am teaching a summer course face-to-face and want to share my experience and observations with you. I don't mean to frighten you but rather to prepare you if you are going to teach face-to-face in the coming months, as well." [Read more here.](#)
